## **Teacher Qualifications and Professional Learning**

PROFESSIONAL LEARNING AND TEACHER STANDARDS

The King's School continued to focus on delivering quality professional learning to its teaching community and drive their ongoing attention to the AITSL Professional Standards in 2019. Many of our teachers and teaching executive actively pursue professional learning opportunities available throughout the NSW and the world. We also have many teachers that contribute to the many focussed professional learning communities throughout the School, whether these be in departments, across departments or as a whole school community across three campuses. cs

The King's Institute also facilitated our LeadCOMM seminar series. LeadCOMM is a professional learning program designed to develop leadership excellence and the capabilities for teaching and non-teaching leaders who have the responsibility of leading and managing staff at The King's School. LeadCOMM culminated in an annual conference was held facilitated by Mark Oliver from Mark Two Consulting on Authentic Leadership.

In addition, the following compliance training was completed for 2019:
